Security of Financial Records

To minimize unauthorized access to school data, the school's accounting software will be maintained properly to ensure adequate internal controls and security measures are established/functioning. (e.g. encryption where appropriate, user maintenance, secure password protection, etc.). To ensure adequate segregation of duties and to maintain the integrity of financial data, only the business office will have administrative rights (Edit access) to the financial accounting software. The business administrator shall provide the minimum level of access to the accounting software required to perform the duties of individual roles within the school (typically Read Only). To maintain the integrity of fiscal data and proper internal controls, the Board and the director may be authorized to have Read-Only access to non-sensitive data in the accounting software (as allowed by the software).

The system's accounting data shall be backed up periodically to ensure the recoverability of financial information in case of disaster or other failure. The backup file(s) must be properly secured and stored in a

separate location, or in a fireproof safe (if on-site). All other financial data, petty cash box(es), check stock, etc. must be secured from unauthorized access.

The school's physical fiscal records shall be maintained in an organized system ordered by period (month/fiscal year, etc.), numerically or alphabetically as appropriate. Any fiscal record(s) shall be produced upon request (within a reasonable time frame) for active authorized individuals (chair, treasurer, director). Fiscal records shall be retained on site or at the Utah State Archives according to established retention schedules.

Use of School Assets

Except for incidental use of school-issued personal equipment (laptop, iPad, mobile phone, etc.) and authorized rentals per policy, school employees, Board members or others may not use any of the school's assets for personal use without prior approval from the director.

Facilities Use by Outside Persons or Entities

In accordance with state law and this policy, the Board authorizes, on conditions as allowed by law, the use of school facilities (the campus—building, grounds, permanent equipment) for other than school purposes. This may be accomplished with the school facilities being utilized at no-charge as a “community center” for activities benefitting the community (whereby individual(s) or other entities are not receiving any profit or remuneration) or on a fee-based rental arrangement, consistent with this policy and Facilities Use Policy or established procedures. A formal agreement must be signed for either community center or fee-based arrangements.

When school facilities are used by outside parties, by law the school shall assume no expense as a result of renting/leasing. Renting/leasing facilities for purposes other than school functions shall not interfere with the school, its programs, instructional setting, curriculum, and standards. Consistent with the law, the school reserves the right to decline use of the facility by an outside party when it is an undue burden on the school or adequate school supervision cannot be provided. The school may refuse the use of school facilities by outside parties if it determines the use is illegal or not in the best interest of the school.

The Board authorizes school administration to establish rules, guidelines, procedures, standard agreements and fees for the rental and use of school facilities for other than school purposes. The Board will review the procedures as needed. The director shall ensure that all parties follow established policies and procedures for facility use.

Insurance and Bonding

The Board is responsible for procuring and renewing all commercial insurance. The Board may delegate clerical and administrative tasks to school administrators; however, all decision-making authority rests with the Board and the Board always retains responsibility to ensure insurance is adequate and in force. This may not be delegated, either formally or informally to others. The school must maintain at least the minimum levels required of appropriate commercial coverage, as deemed appropriate by the Board or per state law or rule, for the following insurance products or policies:

- General liability.
- Business & personal property.
- Property (building/facilities—earthquake coverage not included without express inclusion for a fee).

- Errors and Omissions/Professional Liability.
- Sexual Abuse and Molestation.
- Employment Practices Liability Insurance.
- Automobile insurance (as necessary).
- Workers' Compensation.
- Unemployment Insurance (a tax).
- Treasurers' Bond (Public Official Bond).
- ERISA Bond (as applicable for retirement plan).
- Other insurance as needed.

A Treasurer's Bond (fidelity bond or Public Official Bond) is required on the person who has investment control over the school's public funds, typically the business administrator, director or the board treasurer (UCA 51-7-15). The school requires proof of adequate insurance coverage from all prospective service providers performing work on behalf of the school on-site (sub-contractors).

Student Medical Insurance Coverage

The school does not provide health insurance or medical insurance coverage for students. The responsibility for ensuring students have medical insurance rests with students' parents/guardians. Insurance policies may be purchased by parents/guardians for students in the private insurance market place. The director shall ensure that proper notice of this policy is published annual in the registration packet and on the school's website.

Banking, Cash Management & Expenditures (Disbursements) Deposit and Loan Accounts, Signature Authority

The Board authorizes deposit and loan accounts for general or specific purposes. School fiscal assets may only be kept at any bank or financial institution that is currently on the approved list of institutions by the Utah Money Management Council.

The Board shall ensure that at least two the following three *active* individuals (currently serving in good standing) are Account Owners (and signers) on all accounts at all financial institutions or mortgage/loan providers (as permitted by the financial institution):

- The board chair.
- The treasurer.
- The principal/director.

The Board shall ensure that current signature cards are on file at financial institutions. The Board may authorize other active individuals to be additional signers on the school's financial accounts who are Board members or employees of the school, serving in a necessarily related fiscal role. The minimum number of signers necessary to meet the administrative fiscal responsibilities of the school shall be maintained; however, the number of signers shall not be less than two. To properly segregate duties, the Board chair/president, treasurer, director/principal or others authorized by the Board, are the only individuals with signature authority and are responsible for reviewing and authorizing all fiscal transactions in writing.

Business office staff shall not be signers on financial accounts, but may be granted limited online access to financial accounts to view reports, download statements, and view account balances for convenience as authorized by the Board.

Board members or employees who are given signature authority over bank accounts must act in an ethical and responsible manner, consistent with the law; and shall cooperate freely when their service ends and they must be removed from bank accounts. The Board shall ensure these expectations are properly disclosed to account signers when these individuals are added to the school's bank accounts.

Account Reconciliations

The Board agrees that financial account (bank) reconciliations (deposit, investment, loan, purchasing card, school activity funds, petty cash, etc.) are one of the most important procedures for proper internal controls. The business administrator shall perform all reconciliations for all banking or investment accounts monthly, or as often as account statements are made available

Segregation of Duties

The Board recognizes the role of segregation of duties in protecting the assets of the school. The director shall ensure that internal control procedures maintain appropriate segregation of duties for the size and operations of the school.

Investments

The school shall follow state law and rule, including those of the Utah Money Management Council (MMC) regarding investing the school's fiscal assets. By law, the school shall not deposit fiscal assets into brokerage accounts and are limited to institutions approved by the MMC.

While ensuring sufficient cash balances are maintained in the school's general operating account to cover all regular monthly expenditures, the school shall consider the deposit interest rates of the Public Treasurer's Investment Fund (PTIF) compared to other approved institutions and propose to the Board investment plans consistent with this policy. All transfers of cash between school accounts must be made within Board policy and upon approval of the Board or Treasurer as authorized by the Board. The order of investment objectives are safety, liquidity and return.

In accordance with law, the school may not deposit school funds for investment ("public funds" as defined below) into brokerage accounts of any kind.

Petty Cash

Small petty cash funds, not to exceed \$500, may be established for incidental, non-recurring cash needs, incidental local expense reimbursement, and small-dollar vendor purchases. The director may authorize a person(s) to be a petty cash manager (steward of a petty cash fund) on an as-needed basis to oversee a petty cash fund. The director shall ensure written procedures are developed for treatment of petty cash. All petty cash managers shall be properly trained in school policy and procedures. A reconciliation between petty cash funds on hand and petty cash general ledger accounts shall be performed monthly.

Cash Handling and Cash Receipts

Wherever possible, duties such as collecting funds, maintaining documentation, preparing deposits and reconciling records and general ledger accounts should be segregated among different individuals. When segregation of duties is not possible (due to the small size and limited staffing of the school), compensating controls such as direct management supervision, periodic and unscheduled (random) review of cash receipting records by independent parties shall be implemented or performed. Except for lunch payments (collected in the lunchroom) or upon approval from the director in limited circumstances, all cash receipts must occur at the front office. The Director shall be responsible for the establishment of the *Cash Handling & Receipts Procedures*. The director shall provide for annual training of *Cash Handling & Receipts Procedures* for all staff with relevant job duties. All school staff shall follow established procedures (internal controls) for the handling of cash receipts as outlined in the *Cash Handling & Receipts Procedures*.

The director shall be responsible for collecting past due balances owed to the school and may delegate this authority to lunchroom or front office staff. The director shall ensure that the school provide a notice in the registration packet annually and on the school's website that clearly states the school's policy to collect past due balances, with the use of collection agencies when appropriate and necessary.

All funds received (cash and checks) must be receipted or logged upon receipt and shall be kept in a central, secure location until they are deposited in the school's financial institution within 3 banking days in compliance with Utah Code 51-4-2(2)a. Periodic and unscheduled (random) audits or reviews shall be performed for all cash activity.

All payments of school fees shall correspond with the approved fee schedule, as required by State Board Administrative Rule 277-407 and shall be properly posted to a student's account. The director is responsible to oversee all fee waivers (including granting fee waivers) consistent with the school's approved Fee Policy and Schedule, with attention to student and family confidentiality.

Public Funds

All funds (from any source) received and deposit by the school are defined as public funds as soon as they are received by the school (whether deposited or not). Public funds shall only be spent according to the law as applicable to K-12 educational institutions in Utah and are governed by various laws and rules, including those of the Utah MMC.

Electronic Funds Transfer

Electronic fund transfer, wire transfer or any other electronic transfers (EFTs) (*not including* direct deposit for payroll-related payments) may occasionally occur. Authorized account signers may initiate EFT transactions as needed for approved procurement transactions only, following all applicable policies and procedures. The Board may restrict EFTs upon its discretion.

Donations, Gifts and Incentives

The director may approve donations providing the item(s) to be donated (monetary, gifts, goods, materials, equipment, or services) are in acceptable condition, legal to possess by a public school, safe, unencumbered, free of liens or claims, usable by the school, are generally not restricted in their use, or are not restricted for use by a specific school employee. Donations for the purpose of compensating specific employees or positions may not be accepted, rather donations may be accepted without specific purposes delineated. Donations received by the school become public funds and may not be returned or expended except within

the law as applicable to the appropriate use of public funds. All policies and procedures of the school are applicable to donations, including Cash Receipt and Disbursement policies and procedures, and all other internal controls.

Gifts to the school must be general in nature and may not be restricted such that they cannot be used for various purposes, except when those purposes are to a specific program, such as the PE program, science department or art program, etc. Donations or gifts intended to benefit a specific student or may not be accepted and as defined in law could be considered a bribe.

Actions to name buildings, teams, fields, schools, departments, etc. are solely within the power of the Board and shall not be authorized when unreasonable or restrictive encumbrances exist, and limitations put upon the school by a donor would limit or hamper the school to achieve its mission and comply with all regulations. This authority may not be delegated by the Board.

Donors may be recognized through print materials, announcements, and other advertising as determined by the director. Donors shall be provided equitable recognition for like donations provided to the school.

The value of a gift or donation to the school may not be assessed or assigned a monetary value by the school and provided to the donor either verbally or in writing. The value and tax deductibility of a donation or gift made by an individual or company is to be determined by the donor and their tax advisor, not the school. The donor may provide and the school may sign a Form 8283 Noncash Charitable Contributions form (available from the IRS) upon request. If a product or service is given in return for a donation or gift that is clearly defined, such as a \$250 advertising slot in the yearbook, that value can be disclosed by providing the school's advertising rates to the donor for them to assign a value.

The school nor its employees or approved volunteers (including board members) shall ensure that incentives of any kind to any party are not bribes, or quid-pro-quo (this-for-that) arrangements. Enrollment, employment or doing business with the school shall never be contingent upon gifts or incentives from the school to other parties or to the school from other parties. A few examples of prohibited activities include:

- A parent making a donation to the school if the school enrolls their child.
- The school giving a free iPad to any student that enrolls before October 1.
- A vendor giving a free trip to Hawaii to the director when the school signs a service agreement.
- The parent organization president receiving a free case of hot dogs personally from a vendor because the school placed an order with them.
- A parent making a donation to a teacher (or simply a cash payment) for an "A" grade for their student.

Fundraising

Within the law, including fee waiver laws, fundraising is generally permitted by the Board or by school administration to allow the school to raise additional "local funds" to supplement authorized school-sponsored programs. Local funds are defined as funds received by the school that are not state or federal program funds, or funds from state or federal sources as established in law. Fundraising at the board level is only authorized after consultation with the director and by an affirmative Board vote. The Board shall at least annually review the local fundraising activities of the school and all local activities that support or subsidize the school. The Board shall ensure that revenues raised during fundraising activities or through activities that support the school are raised within all established regulations and policies; and that they support the school's mission and vision. The school shall not enter into fiscal agent agreements, cohorts or consortiums, etc. without Board approval.

Fundraising at the school level is only authorized and administered by the director, within the parameters of Board policy. Fundraising at the school level includes fundraising activities of the school's own parent organization (regardless of what it is called) and is also authorized by and under the direction of the director.

Grants not provided by state or federal sources in the regular operation of the school are also defined as fundraising and must be approved by the director and the business administrator, and where encumbrances are present or strings are attached, the Board. It is the responsibility of the director to ensure proper compliance with all grant requirements applicable to grantees, including state or federal regulations and guidance where applicable.

The Board and the director shall not circumvent established school fee regulations by calling what is ordinarily a "fee" a "donation" to avoid fee waiver regulation. Funds requested voluntarily from school patrons for fundraising activities must always be voluntary contributions. The school shall comply with UCA R277-407 School Fees fundraising requirements and restrictions, including the implications on school fees and fee waivers by:

- Not requiring or allowing required individual fundraising, but may provide for optional individual fundraising opportunities for students to raise money to offset the cost of the student's fees.
- Ensuring individual student fundraisers are included as part of the maximum fee amount per student and total aggregate fee amount per student.
- Allowing for group fundraisers.
- Not denying a student membership on a team or group if the student does not participate in a fundraiser.
- Complying with R277-113 when using alternative methods of raising revenue that do not include students.
- Notifying parents of required group fundraising, providing specific details including the nature of the required fundraiser, and the estimated participation time required of the parent or student.

All local funds are public funds once the school receives the award, including before the award is deposited in the school's financial institution. All expenditures of the school, including expenditures with local funds raised during fundraising activities shall be made in accordance with the law and established school policies and procedures. All items purchased with funds gained through fundraising activities are the property of the school, with the exception of supplies, clothing or other materials provided through school programs for student consumption or ownership (co-curricular or extracurricular activity uniforms, completed project work, etc.)

Activities of approved volunteers (non-school employees) in relation to fundraising activities of any kind must be overseen by the director or other staff as delegated by the director. The director shall ensure that all activities of fundraising activities and parent organizations are adequately reviewed and considered with the school's insurer to evaluate and manage risks associated with such activities. Conflict of Interest forms must be completed annually when persons employed by or affiliated with the school are also involved in fundraising organizations working on behalf of for the benefit of the school or who temporarily hold funds that that will benefit the school. The director shall develop procedures for all local fundraising activities.

"School-sponsored" means programs, activities, fundraising events, clubs, camps, clinics, sports, and any other event, or activity that are authorized by the school director, Board, and/or Board committees, including the authorized parent organization or authorized curricular school clubs, activities, sports, classes or programs, etc. satisfying one or more of the following criteria:

This institution is an equal opportunity provider and employer

- The activity is managed or supervised by school administration, staff, or approved (authorized) volunteers.
- The activity is not managed, supervised or provided by another authorized and properly insured entity.
- The activity uses the school's facilities, equipment, or other school resources.
- The activity is supported or subsidized, more than inconsequently, by public funds, including the public school's activity funds or Minimum School Program or federal dollars.

Properly approved school-sponsored activities:

- May use the school's name, facilities, and equipment.
- May utilize school employees and other resources to supervise, promote, and otherwise staff the activity or fundraiser.
- May be eligible to be insured under the school's liability insurance policy (subject to the policies of the school's insurer).
- May provide additional compensation or stipends for school employees with the approval of the director and under school payroll policies and consistent with the school's budget.

Fundraising activities, or activities of outside organizations of any kind that are not school-sponsored activities, must be conducted at arm's length so that revenues and expenditures are not commingled with the public funds of the school.

School Athletics and Local Revenues for Specific Programs

The school shall follow all regulations related to local revenue associated with "activities", such as high school activities regulations and various "Association" standards that follow the law. Examples of specific programs include programs such as athletics, art, science, performing arts, music, ROTC, etc. High school athletic programs have unique aspects that present challenges for principals, athletic directors, coaches, etc. If outside entities, etc. (booster clubs) desire to promote, raise funds for or provide support to school activities or programs, they may only do so with the approval of the Board. Booster clubs may not use the school's name, mascot, logo or likeness. They must operate at arms-length and their activities may not encumber or obligate the school. Booster clubs shall not intentionally or unintentionally imply that they are "the school" nor imply that funds raised go directly to the school. Booster clubs may not use the school facilities except under a formal Facilities Use Agreement consistent with school policy.

The director is responsible to ensure all school programs and booster club arrangements comply with all fiscal policies.

Vending Machines

Use of vending machines may be allowed, consistent with the law, and authorized by the Board (or by the director when authorized). School staff shall follow school procedures for cash receipts, including the Cash Handling & Receipts Procedures. Accurate inventories of goods stocked and sold from vending machines are to be maintained. Vending machine stock shall be stored securely to minimize shrinkage (theft) and the vending program should be reviewed at least annually.

Cash Disbursement and Expenditures

Each disbursement shall require two signatures to be authorized for payment, which includes two signatures on the Requisition/Reimbursement Form and the transmittal instrument (wire transfer, check, etc.). Signature stamps for employees' signatures may not be used to sign checks or other legal instruments

(contracts, etc.). Signers (or anyone else) may not sign a blank check or prepare a check with the Payee as “Cash” or “Bearer”. Except as approved by the director and business office, handwritten checks must be avoided except in extreme circumstances for unique functional purposes. Voided checks shall immediately be mutilated/disabled by writing VOID prominently across the front of the check and must be retained for audit purposes. The Board shall receive a Check Register at each Board meeting or upon request for review and spot-audit activities using the Transaction Audit Report.

All cash disbursements shall be made consistent with regulations and school policies. The Director shall ensure the establishment of *Cash Disbursement Procedures* with strong internal controls over:

- Credit, debit, or purchase card transactions.
- Employee reimbursements.
- Travel.
- Payroll.

The director, with the assistance of the business office, shall provide for annual training of *Cash Disbursement Procedures* for all staff with relevant job duties. Prior to disbursement, the school shall ensure that the *Cash Disbursement Procedures* have been followed.

Use of School Credit & Debit Cards

Charter School credit cards and purchase cards (P-Cards) shall only be issued with the formal approval of the Board and with proper justification. If credit cards are issued they should be assigned to specific school employees (cardholder), used only by the cardholder, and should be used only for school-related expenditures. Debit cards issued to school staff are discouraged and are only authorized after formal Board approval.

All charges must follow all procurement laws, school policy and administrative procedures. Cardholders are required, at least monthly, to reconcile their credit card accounts and provide documentation to the business office to substantiate charges. This may not be delegated and may not be delayed. The Board authorizes the director and/or business office to revoke cardholder privileges of any cardholders who do not comply with this policy.

Accounts Payable

Only valid transactions based on approved, documented vendor invoices, receiving reports, or other approved documentation are recorded as accounts payable. All disbursements, including accounts payable must be made consistent with Cash Disbursement Procedures. Vendors and suppliers are paid as their payment terms require (and which the school agrees), taking advantage of any discounts offered. If cash flow problems exist, payments are made on a greatest dependency/greatest need basis, considering critical disbursements, including payroll and tax obligations, etc. Payroll (wages earned by employees) and all tax liabilities (including payroll) must always be paid. The director shall not allow liquidity levels to be such that payroll and tax liabilities and obligations cannot be made—the director must act before liquidity levels fall to extreme levels and must ensure liquidity is sufficient for wages earned and related taxes to be paid.

Employee Reimbursement

Employees who use personal funds to purchase approved supplies or otherwise approved expenses on the school’s behalf, may receive reimbursement for the amount of approved documented expenses consistent

with policies for all other school expenditures and cash disbursements. Such reimbursement may or may not include reimbursement for sales taxes paid, consistent with the law.

Procurement (Purchasing)

Procurement of Goods and Services

The school shall establish and follow procurement (purchasing) procedures and the state procurement code (UCA 63G-6a), and federal procurement standards 2 CFR 200.318 for federal programs, including ethical provisions. Purchasing ethics for employees and board members include:

- Following the law and ethical standards.
- Not purchasing goods or services for the school unless pre-approved by authorized persons consistent with this policy and established procurement procedures.
- Not using their positions to acquire goods or services for private economic benefit.
- Not use school contracts or vendor accounts to make personal purchases.
- Not use the school's tax exemption certificate to make personal purchases.

All procurement activities are under the direction of the director. The school shall procure only those items and services that are required to perform the mission and/or fill a bona fide need. The school shall acquire goods and services with integrity in a fair, open (as appropriate to the procurement), ethical, efficient and cost effective manner. Segregation of duties is required for procurement activities where possible, from the quotation process through to the payment of invoices. Procurements are made using best value contracting which includes assessing the best value considering quality, performance, timing, and price.

Additionally:

- Administration or other school personnel shall not intentionally divide a procurement purchase into one or more smaller purchases to divide an invoice or purchase order into two or more invoices or purchase orders, or to make smaller purchases over a period of time in order to circumvent any aspect of this policy or of state law.
- Exclusive contracts (requiring the purchase of needed goods or services from a single, specified seller) are not authorized except as outlined in the state procurement code (UCA 63G-6a).
- Construction and improvements shall comply with the law and administrative rules of the State of Utah and its departments or agencies, the Utah State Board of Education, and differing rules, forms or reports, not in accordance with state law and administrative rules, may not be produced by school staff or outside service providers without Board authorization.
- Leases will be provided to the USBE, USCSB and to outside counsel as required or appropriate for review as required in 53G-5-404 and USCSB procedures.
- Administration or any agent of the school may not accept hospitality gifts, gratuities, kickbacks, or any other unlawful consideration under 63G-6a-2304.5.

Thresholds

- The "individual procurement threshold" for the LEA is \$1,000. This is the maximum amount that the LEA can expend to obtain a single item/service from one vendor at one time without requiring competitive purchasing. It is recommended that all purchases require competitive quotes.
- The "single procurement aggregate threshold" for the LEA is \$5,000. This is the maximum amount that the LEA can expend to obtain any combination of individual procurement items/services costing less than \$1,001 from one vendor at one time up to \$5,000, without requiring competitive

purchasing. Example: You can purchase 4 laptops from a single vendor when those laptops, individually, cost \$1,000.99 or less each. You can purchase five if they cost \$999.99 or less each. In the event any single item on an order is over the \$1,000 single item threshold, ALL items on the order required competitive purchasing.

- The “annual cumulative threshold” for the LEA is \$50,000. This is the maximum total annual amount that the LEA can expend to obtain individual procurement item(s) costing less than \$1,001 purchased from the same vendor during the fiscal year (July 1 – June 30) not to exceed \$50,000. If a purchase exceeds \$50,000, it is not considered a small purchase and shall be processed through a bidding process or a request for proposal (RFP) process.

Purchases Requiring Quotes

- For procurement item(s) costing between \$1,001 and \$5,000, obtain a minimum of two competitive quotes that include minimum specifications and shall purchase the procurement item from the responsible vendor offering the lowest quote that meets the specifications. The school shall retain documentation per Utah State Archives regulations.
- For procurement item(s) costing between \$5,001 and \$50,000, obtain a minimum of two competitive quotes that include minimum specifications and shall purchase the procurement item from the responsible vendor offering the lowest quote that meets the specification. The school shall retain documentation per Utah State Archives regulations.
- For procurement item(s) costing over \$50,000, conduct an invitation for bids or other procurement process outlined in the Utah Procurement Code 63G-6a. The school shall retain documentation per Utah State Archives regulations.

Professional Services

“Professional service” means labor, effort, or work that requires an elevated degree of specialized knowledge and discretion, including labor, effort, or work in the field of: accounting; administrative law judge service; architecture; construction design and management; engineering; financial services; information technology; the law; medicine; psychiatry; or underwriting.

All third-party vendors contracting with GATEWAY PREPARATORY ACADEMY must be compliant with Utah’s Student Data Protection Act (SDPA), U.C.A §53E-9-300. Vendors determined not to be compliant may not be allowed to enter into future contracts with LEA without third-party verification that they are compliant with federal and state law and board rule.

- Professions services costing less than \$50,000 can be awarded through direct negotiation with the service provider.
- Professional services costing between 50,000 and 100,000 need a minimum of two competitive quotes.
- Professional services costing over \$100,000 shall be acquired using a competitive bidding or RFP process, or by selecting a provider from an approved potential vendor list created using an invitation for bids or an RFP.

Small Construction Projects:

- Costing less than \$25,001 may be procured by direct award without seeking competitive bids or quotes after documenting that all applicable building code approvals, licensing requirements, permitting and other construction related requirements are met.

Contracted Services Outside Service Providers

Outside service providers may be used to provide services or management services under a service agreement. Service providers receive direction from the school and execute the decisions made by the school (the school retains major decision-making authority and autonomy for all aspects of operations) whereby management companies are delegated decision-making authority for major school policy, procedure and operational deployment. Thus, the school gives operational autonomy to the management company and proper internal controls must be in place to oversee the activities of management companies. The school shall ensure that outside service providers with access to student or staff information properly secure data (privacy). Service agreements must include prohibitive language in relation to data privacy.

Examples of service providers are lawn maintenance contractors, contracted speech therapy and business services, all of which are delegated certain tasks as assigned by the school. Examples of management companies include education service providers that provide curriculum, professional development, student assessments, management and supervision of employees, and overall operational management services, etc.

Consistent with UCA 63G-6a-1204 Multiyear Contracts, service agreements shall not exceed five years in term (with renewals) and all services shall be reviewed against performance objectives and bid at least every five years. The utilization of outside service providers (i.e. independent contractors) and contracted personnel must be sufficiently evidenced by:

- Service Agreements outlining the terms of the agreement (e.g., responsibilities work requirements, rate of compensation, and nature and amount of other expenses, if any) with the individuals or organizations providing services and details of actual services performed.
- Required IRS W-9 form, proof of authorization or licensure and liability insurance certification (among other things) are required before service is rendered or payment is made.
- Invoices or billings submitted by consultants, including sufficient detail as to the time expended and nature of the actual services performed.
- The use of a management contract for educational administrative services will clearly identify the contractor's performance requirements, including student academic achievement (if applicable), contractor's compensation and define the school's rights to educational curricula and intellectual property developed by or provided through the service agreement.
- The director shall cause that all contracts with educational service providers (as defined in R277-115) shall include language that allows the school to verify the provider is performing services consistent with the law.

The use of independent contractors is closely monitored so as not to vary from the rules of the Fair Labor Standards Act and Utah law. The contractor will:

-
- be free from the school's control and direction in scheduling and performing the service, both under a contract and in fact.
 - provide a professional service, and/or a service that is outside the school's usual course of business or provide a service on a temporary basis.
 - not receive any fringe benefits as such, although their fee may include provision for fringe benefits.
 - use his or her own letterhead, supplies and materials when billing for services.

The Board reserves the right at its sole discretion to amend or change these policies at any time.
